

VISITOR INFORMATION

We are looking forward to your visit.

Maths Circle is an internationally trusted EdTech company who create award-winning maths programmes, dedicated to helping children acquire fundamental numeracy skills. Our expertise in maths mastery, combined with enticing gamification and design, make maths fun.

HOW TO FIND US

Maths Circle Ltd offices can be found on the 3rd floor of Bedford Heights, Brickhill Drive, Bedford, MK41 7PH. Please report to Reception upon arrival and they will notify us. Further details can be found [here](#).

BY CAR

If using a sat nav please type in 'Bedford Heights' and not the postcode (our postcode takes you to the loading bay on Manton Lane rather than the car park on Brickhill Drive). You are welcome to park either in the visitor car park at the front, or in the large car park next to the Travelodge hotel just next door to the Bedford Heights building, but if you do so, please ensure you sign in at Reception with your car number plate so that we can ensure you are registered on the system for free parking to avoid a ticket.

BY TRAIN

Bedford Station is 1 mile away. The Thameslink line links Brighton and Gatwick directly to Bedford Station, via St Pancras International. Midland Mainline runs services between St Pancras and the Midlands.

BY BUS

There is a bus stop directly in front of Bedford Heights with a direct route from the bus station in the town centre on the number 6 service. For more information on bus timetables and maps please click [here](#).

WHAT ELSE IS ON SITE?

Refreshments are available from the Graze Café bedfordheights.co.uk/grazecafe/ and various vending machines throughout the building. There are toilets with showering facilities.
